Posttraumatic Stress Disorder (PTSD) Clinic at Florida Hall

- Offering treatment for people who have experienced trauma including physical and sexual assaults, serious accidents, childhood abuse, and witnessing violence.

- Traumatic experiences associated with PTSD include both recent trauma in adulthood and earlier traumatic events (e.g., childhood abuse).

- Symptoms of PTSD include:
  - Flashbacks, nightmares, intrusive memories
  - Making efforts to avoid reminders of traumas, angry outbursts, jumpiness, and hyper vigilance
  - A tendency to repeatedly engage in dangerous behaviors or relationships, depression, difficulty concentrating, and a tendency to “space out”

Our program includes:
  - A thorough evaluation of their symptoms
  - Group Treatment (some individual treatment offered)

Please call or refer patients to our PTSD Clinic Hotline: 404-616-0326 for more information, or contact Drs. Bradley, Schwartz, or Ressler.
