# Moving Together

## An Inclusive Parent and Toddler Music/Movement Group

We all know the toddler years are such a special time for parents to interact with their child— it is during these months that children first learn language, appropriate playskills and the beginnings of their independence skills. Moving Together is a movement-based group designed to foster attachment between parent and child and to promote development. With a trained dance therapist by your side, be prepared to have fun playing games, moving to music and being creative with your child. If your little one is between the ages of 15-36 months, come join us as we explore toddlerhood. We look forward to meeting you!

**When: Now registering for our upcoming session**

**Cost: \$150 for at risk kids; cost includes:**

- Initial Intake
- Clinical assessment and feedback
- One individualized play session
- One group session

**Address: 1551 Shoup Court
